

Elements of Cloud and Cybersecurity

This badge is a recognition of skills and knowledge in the field of cloud and cybersecurity as well as the completion of the Elements of Cloud and Cybersecurity course.

After accomplishing this badge, the student has fundamental knowledge on cloud and cybersecurity solutions as well as related fundamental terminology, features, and principles.

Upon earning the badge, the student has demonstrated their expertise in the field by completing practical exercises and processing various subjects across the aforementioned topics.

The scope of the course is two European study credits (2 ECTS).

This badge has been granted by the course developers, namely Microsoft, Kajaani University of Applied Sciences, and mentor companies.

Criteria

This badge can be earned by successfully completing the Elements of Cloud and Cybersecurity course.

The course is organized by Microsoft, Kajaani University of Sciences, and mentor companies. The course is part of the Microsoft Skills for Jobs study program as well as the Cloud and Cybersecurity microdegree.

The course consists of multimodal theoretical content, practical exercises, and knowledge checks and can be completed independently on the Edukamu study platform developed by Kajaani University of Applied Sciences.

More information about the course can be found on the [Cloud and Cybersecurity microdegree website](#).
